

FREELANCE UI DESIGNER PROJECT-BASED CONTRACT

Numu Lab

Contract Date: 09/08/2026

This Freelance Project Agreement (the “Agreement”) is entered into between the following parties.

1. Client and Freelancer

1.1 Client

Company: Numu Lab

Representative: Oussama Fadhli

Country: Tunisia

Email: tech@genie-ops.com

Hereinafter referred to as the “**Client.**”

1.2 Freelancer

Name: Mishra Shrid Surendranath

City: Thane

State: Maharashtra

Country: India

Role: UI Designer / Frontend UI Developer

Email: shridmishra00@gmail.com

Hereinafter referred to as the “**Freelancer.**”

2. Project

The Freelancer agrees to provide UI design and related implementation services for the following project:

- **Project Name:** Numu Lab Landing Page
- **Project Type:** UI/UX Design + Frontend Implementation
- **Client:** Numu Lab

The Freelancer agrees to perform the work according to the requirements, specifications, references, and instructions provided by the Client.

3. Scope of Work

The Freelancer will be responsible for providing the required UI/UX work for the project, including, where applicable:

- UI/UX design of the required screens and pages.
- Responsive desktop, tablet, and mobile designs where requested.
- Creation and organization of the Figma design file.
- Components, layouts, typography, colors, spacing, and design elements.
- User interface states required by the project.

- Frontend implementation of the approved designs where applicable.
- Responsive frontend implementation.
- Necessary assets and design resources used in the project.
- Clean and organized source code.
- Any additional work explicitly agreed upon by both parties in writing.

The Freelancer must follow the Client's project requirements and design direction.

4. Deliverables

Upon completion of the project, the Freelancer must provide the following deliverables.

4.1 Design Deliverables

1. Complete Figma design file.
2. All project screens and UI components.
3. Responsive designs where required.
4. Design components and reusable elements.
5. Necessary design assets.
6. Properly organized Figma layers, frames, components, and sections.

4.2 Development Deliverables

Where frontend implementation is included in the project scope:

1. Complete source code.
2. All frontend files necessary to run the project.
3. Required assets.
4. Responsive implementation.
5. Clean and maintainable code.
6. Any configuration or documentation necessary to run the delivered project.

The Freelancer must not intentionally withhold any source files, Figma files, assets, or other materials necessary for the Client to use, modify, maintain, or continue developing the project.

5. Project Fee

The total compensation for the project is:

USD \$30

Thirty US Dollars

This amount represents the total agreed project fee unless additional work is separately approved in writing by the Client.

No additional charges may be requested without the Client's prior written approval.

6. Payment

Payment will be made through a mutually agreed payment method.

The Client may withhold final payment until the agreed deliverables have been provided and reviewed.

The final delivery must include the required Figma ownership/access and complete source code before the project can be considered fully delivered.

7. Revisions

The Freelancer is entitled to a maximum of:

TWO (2) REVISION ROUNDS

A revision round means a consolidated set of reasonable changes based on the originally agreed project requirements and design direction.

The two revision rounds do not include:

- Completely changing the project scope.
- Creating new screens that were not originally requested.
- Redesigning the project from scratch after approval.
- Requirements introduced after the original scope has been completed.

Additional work outside the agreed scope must be discussed and approved separately.

8. Approval Process

The Client will review submitted work and provide feedback.

The Freelancer must address valid feedback related to the original requirements within the two included revision rounds.

Approval of one screen or component does not prevent the Client from identifying functional or implementation issues in the final project.

9. Ownership and Intellectual Property

Upon full payment of the agreed project fee, all rights, title, and interest in the final project deliverables created specifically for Numu Lab under this Agreement shall belong to the Client, to the extent permitted by applicable law.

This includes, without limitation:

- Figma designs.
- Figma components.
- UI layouts.
- Design system created specifically for the project.
- Frontend source code created specifically for the project.
- Project-specific assets created by the Freelancer.
- Project documentation.
- Other original materials specifically created for the project.

The Freelancer agrees to transfer to the Client all transferable intellectual property rights associated with the final deliverables.

10. Figma Ownership

The Freelancer must provide the Client with the **editable Figma source file**, not merely exported images or view-only access.

Where technically available, the Freelancer shall transfer ownership of the relevant Figma file or project to the Client's designated Figma account.

The Client must receive sufficient access to:

- Edit the design.

- Duplicate the design.
- Modify components.
- Export assets.
- Continue development with another designer or developer.

The Freelancer may not retain exclusive control over the final Figma project after final delivery.

11. Source Code Ownership

The complete source code created specifically for this project must be delivered to the Client.

The Freelancer may not:

- Lock or encrypt the source code to prevent Client access.
- Withhold important source files.
- Retain exclusive control over project repositories.
- Prevent another developer from continuing the project.

If a repository is used, the Client must receive appropriate ownership or administrative access upon final delivery.

12. Third-Party Materials

If the Freelancer uses third-party resources, libraries, fonts, icons, images, templates, or other materials, the Freelancer must ensure that their use complies with the applicable license.

The Freelancer must inform the Client if any third-party resource requires a separate commercial license or payment.

The Freelancer must not knowingly include copyrighted or commercially restricted material without authorization.

13. Confidentiality

The Freelancer agrees to keep confidential all information received from the Client relating to:

- Numu Lab.
- Business operations.
- Product ideas.
- Source code.
- Designs.
- Credentials.
- Customer information.
- API keys.
- Technical architecture.
- Business strategies.
- Internal documentation.

The Freelancer must not disclose or distribute confidential information to third parties without the Client's written permission.

This obligation survives completion or termination of this Agreement.

14. Security and Credentials

The Freelancer must take reasonable measures to protect all project credentials and confidential information.

The Freelancer must not:

- Share credentials with unauthorized persons.
- Commit private credentials or API keys to public repositories.
- Intentionally introduce malicious code.
- Intentionally introduce backdoors, malware, spyware, or hidden access mechanisms.
- Use project credentials for unrelated purposes.

Any credentials provided by the Client must be used solely for the project.

15. Portfolio Rights

The Freelancer may not publicly display the project, screenshots, designs, source code, or other project materials in a portfolio, social media, website, case study, or marketplace listing **without** the Client's prior written permission.

The Client may grant permission after the project has been publicly released.

16. AI and Third-Party Tools

The Freelancer may use AI-assisted development or design tools when appropriate.

However, the Freelancer remains fully responsible for the quality, originality, security, licensing, and correctness of the delivered work.

The Freelancer must not submit AI-generated material that knowingly infringes third-party intellectual property rights or introduces security vulnerabilities.

17. Quality Requirements

The delivered work must:

- Follow the agreed requirements.
- Be reasonably organized and maintainable.
- Function as represented by the Freelancer.
- Not intentionally contain malicious code.
- Not contain unauthorized tracking or hidden functionality.
- Be delivered in a usable and editable format.
- Be sufficiently complete for the Client to continue the project.

18. Deadline

Project Start Date: 10/08/2026

The Freelancer agrees to communicate promptly if circumstances arise that could materially affect the agreed delivery date.

Any significant delay should be communicated to the Client as soon as reasonably possible.

19. Communication

The parties may communicate through:

- WhatsApp.

- Email.
- Project management tools.
- GitHub.
- Figma.
- Other mutually agreed communication channels.

Important changes to the scope, price, deadline, or deliverables should be confirmed in writing.

20. Independent Contractor

The Freelancer is engaged as an **independent contractor** and is not an employee, partner, agent, or legal representative of Numu Lab.

The Freelancer is responsible for their own:

- Taxes.
- Equipment.
- Internet connection.
- Software licenses.
- Workspace.
- Legal and regulatory obligations applicable to their activities.

Nothing in this Agreement creates an employment relationship.

21. Subcontracting

The Freelancer may not subcontract or transfer the project to another person without the Client's prior written approval.

The Freelancer remains responsible for the work of any approved subcontractor.

22. Termination

Either party may terminate this Agreement if the other party materially breaches its obligations and fails to remedy the breach within a reasonable period after written notice.

The Client may terminate the Agreement if the Freelancer:

- Abandons the project.
- Repeatedly fails to meet agreed requirements.
- Refuses to deliver agreed source files.
- Misuses confidential information.
- Introduces malicious or unauthorized functionality.
- Seriously violates the terms of this Agreement.

Upon termination, the Freelancer must provide all completed deliverables that have been paid for by the Client.

23. Final Handover

The project will be considered **fully delivered only when the Client has received all applicable deliverables**, including:

- Final Figma file.
- Transfer or ownership of the Figma project where applicable.
- Complete source code.

- Assets.
- Required documentation.
- Any other deliverables explicitly included in the project scope.

24. Agreement Changes

Any modification to this Agreement must be agreed upon in writing by both parties.

Messages exchanged through email, WhatsApp, project management platforms, or other written communication may constitute written confirmation of changes where both parties clearly agree to the modification.

25. Dispute Resolution

The parties agree to first attempt to resolve any disagreement through good-faith communication and negotiation.

If a dispute cannot be resolved amicably, the parties may pursue the remedies available under applicable law.

26. Entire Agreement

This Agreement represents the complete understanding between the Client and Freelancer regarding the project and supersedes previous discussions concerning the same project, except for written project requirements expressly incorporated into this Agreement.
